“Incident Complaint Report (ICR) formally called “CALLS FOR SERVICE”

The first section of this report refers to the activities that the police were involved in for 2015. You will see that there is two major changes to this section compared to past years reports. First there was a significant increase in the number of incidents (referred to as ICR's), this was a result of the installation of the computers in the police vehicles and the new Records Management System, which allowed us to track more information and activities than we were able to track in the past. Although the computers were installed and we switched to the new system on May 27, 2015, we manually entered all the ICR's from January 1, 2015 to the time that we went live, so the listing for the year is complete.

The first 3 pages shows a generic breakdown of the calls that were received in the City of Spring Grove. The following 24 pages is a listing of the Incidents, along with the case number. One of the new features of the system is that we can categorize incidents under a “general” category, but also subcategorize the incident. This may give you a better idea of the types of incidents that occur in the city.

Criminal Cases Investigated

After a "ICR" has been recorded, then a officer responds, we now have two functions to perform. We take the necessary actions to complete the call. For example, in the case of where we are called to unlock a vehicle, because the owner locked the keys inside, and once the vehicle is unlocked, the call is complete and we have no further action. In the second event, we determine if there has been a crime committed, if the answer is true than an investigation is started. The evidence is collected and the victims and/or the witnesses are interviewed. There are also situations where the sheriff's department initially responds to the call, but the case is referred back to the police department for further investigations and follow-up.

On the next page, you will also find the page entitled "Spring Grove Police Department Case Disposition." This describes how the cases were brought to a final conclusion. Just a couple of notes, the Restitution made category will typically have the NSF Check cases but also situations like a "Gas Drive Off" where a customer came back and paid for the fuel and No Charges were filed because they paid for the fuel after we contacted them.

Last year we spent approximately **526.0 hours** of time conducting investigations. The calculation concludes that we had a **CASE CLOSURE RATE OF 84% FOR THE YEAR.**

Other Items of Interest

One of the interesting things that the council may not be aware of is the amount of revenue that is generated through the police department. In 2015, it is estimated that the police department generated over \$24,471.00 dollars in revenues. Revenues came from fines that were imposed by the court, NSF check collections fees and other sources.

Just a couple of highlights and items of interest. Spring Grove Police has, what we feel, was and continues to be a leader with the implementation of the in squad computers. As of the writing of this report, only one other police department has installed a computer in the squad. Spring Grove Police has spent a large amount of time in working out the kinks of the system that will benefit all of the county law enforcement. We still have not reached the full potential of the system but I am very pleased with the system and the time savings overall.

I hope that this report did not become too lengthy or boring. I have tried to assemble a report that gives the council a more appreciative look at the duties that the police department performs on a daily basis.

My hope of this report is that it is a start of a dialogue between the members of the council and the police department. For the sake of the council, there is a large amount of information that is not covered in this report. It is my hope that this report not only answers a few questions, but it should also create more questions of really what your police department does.

As always I thank the council for taking their time to review this report.

Respectfully Submitted,

Paul J. Folz

Chief of Police

Just a couple of other items to mention. As you recall, the police department investigated its first methamphetamine lab

within the city borders. We have also had a number of controlled substance cases where narcotic were seized. We also seized a number of vehicles both from the narcotics arrests and also DUI arrests.
